Continuation of 2. NOTE: The proposed amendment would modify the claimed range to exclude a value of 380, which would be a new issue requiring further consideration and/or search.

Continuation of 5. does NOT place the application in condition for allowance because: It is argued that as the table shows.. 9-18% overa lower silica concentration. This is not persuasive for reasons already of record in the Final Rejection and also because Applicant relies on features of the claimed process of making in order to distinguish the claimed product, which is anticipated by the prior art disclosure. It is argued that in reply, Applicants' assignee represents that... cannot guarantee that it is impossible. This is not persuasive because the amendment has not yet been entered.
